CLOTHING ALLOWANCE

Due to the nature of the job, a clothing allowance is established to compensate, in part, for personal clothing that is damaged as a result of 'wear and tear' while responding to emergency calls and while operating on the training ground. This allowance will be paid to active members effective the date of his/her entry into the Department as determined by his/her attendance during each year from November 1 to October 31. Attendance is determined by being present at the roll call for fire alarms and meetings and by the second roll call for drills. There is no provision to 'make up' a drill for the purposes of earning this Clothing Allowance.

This includes Probationary and Active Members. This does not include Social Members.

Probationary Members and those becoming Social Members or terminating his/her membership will have the Clothing Allowance pro-rated based on the time of their probationary or Regular Membership. In the case, of Probationary Members, he/she will be given his/her Clothing Allowance upon completion of Probation. In the event that the Recruit Member fails to meet the Probationary standards and is thereby terminated, no Clothing Allowance will be granted

The compensation structure is as follows:

Attendance at a Fire Call or Drill	$2.00
Attendance at a Meeting	$1.00

A compilation of the allowance per Member will be maintained by the Department Secretary. Payment will be made once per year during the November meeting.
